School begins: Tuesday after Labor Day
School Ends: Friday before Memorial Day

LOCATION:
224 S 6th Street
Nevada, Iowa
515-382-8054

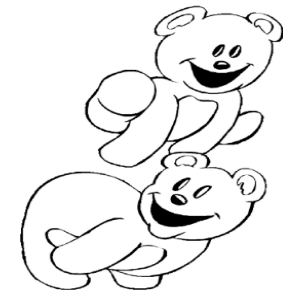

Owner/Director

The owner/director is Amy Coogler. I am a mother of three children and have worked in the Early Educational Childcare Field for the past 20 years. During that time I was a Director of a Childcare Center for more than 250 children and taught many years of preschool, in many different states and communities. I have studied Elementary Education and have a Bachelors Degree in Business Administration. Currently, I am a Certified Instructor for The American Red Cross and teach CPR and First Aid. I am also the President of the Eastern Story County Daycare Association. I thoroughly enjoy young children and love teaching. Children are so eager to learn and I want to help build the foundation your child will need to begin their educational carrier.

Lil' Cubs Preschool A Kindergarten Readiness Program

It is the philosophy of Lil' Cubs Preschool that early learning should consist of fun, warmth, exploration, security, creativity and discovery. Preschool children are very creative and receptive at this age and the preschool will strive to nurture and encourage these qualities in the children who are enrolled.

Lil' Cubs Preschool's purpose is to provide an atmosphere that encourages social, emotional, physical and intellectual growth and development of the child.

Lil' Cubs Preschool

A Kindergarten Readiness Program

Lil' Cubs Preschool's curriculum includes circle time, sharing, reading, songs and finger plays, creative art activities and crafts, games, large and small motor activities, food preparation, nature and science activities, exposure to shapes, numbers, letters, colors and the celebration of birthdays and holidays.

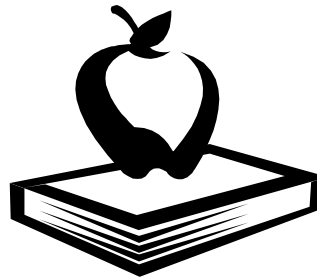

Lil' Cubs Preschool is licensed by the State of Iowa's Department of Human Resources and is governed by an owner who also acts as the Director. Each preschool class will be taught by a degreed person and kept small in size for individual attention.

Lil' Cubs Preschool is located in a spacious updated classroom. There is also an outdoor area that will be used to explore the world, go on nature hikes and discover living things. The parking area is conveniently located in front of the building so that the children can be easily dropped off and picked up.

Curriculum

Each week at Lil' Cubs Preschool, the children will begin a new theme. All of the activities will revolve around the theme. Some examples of the themes are: holiday celebrating, farm, bugs, space, community helpers, frogs, seasons, dinosaurs, circus and Pillars of Character. Along with their theme, students will learn their colors, alphabet, number and shapes. The children will practice cutting, coloring, painting and gluing. We will also touch on patterns and rhyming words. Each day your child will bring home an activity and a news-letter will be going home weekly. There will be progress reports sent home so parents are able to see your child's growth. We will also have exposure to songs and musical instruments, art, large and small muscular activities. Each week we will have show and tell time and a happy helper.

Lil' Cubs Preschool will strive to develop the skills that are needed to begin Kindergarten.

Children are one third of our population and all of our future.

~Select Panel for the Promotion of Child Health, 1981

Snacks

Each class will have a snack time. Lil' Cubs Preschool will provide a healthy snack and 100% juice during each class. Children who wish to celebrate birthdays at Lil' Cubs Preschool are allowed to bring in a special treat on that day. Many of our snacks will be directly related to the weekly theme.

Field Trips

Lil' Cubs Preschool will go on several field trips per year. This will expose the children to many different experiences within the community. In addition to field trips, Lil' Cubs Preschool will invite members of the community to come to our classroom to speak.

Classroom Setup

Lil' Cubs Preschool's classroom will be set up into centers. The classroom will have an area for circle time, kitchen and house center, block center, dramatic play area, painting and coloring table, reading corner, computer center, science center and many other that will rotate throughout the school year. There is also a center that will coincide with our weekly theme.

Another great feature to our room is our classroom computer. Lil' Cubs Preschool will have a computer center where the children will play educational learning games.
